Commissioner for Patents PO Box 1450 Alexandria, VA 22313-1450

Sir:

Listed on accompanying Information Disclosure Statement Forms, PTO/SB/08A and PTO/SB/08B, are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97 and 1.98. Copies of documents FP1 to FP4 and NPL1 to NPL14 are submitted.

In accordance with 37 C.F.R. § 1.98(a)(3), Applicants' undersigned representative submits the following discussion of the relevance of the non-English language document FP4, cited on Form PTO/SB/08A, and documents NPL6 and NPL11, cited on Form PTO/SB/08B:

FP4, WO 97/36868 A1, is in the German language. An English language abstract of document FP4 can be found on the face page of the patent.

Document NPL6, Kunckell, F., "Ueber einige halogenisirte Ketone," *Chem. Ber.* 30:577-579, Verlag Chemie (1897), is in the German language. An English language translation of document NPL6 is attached as document NPL7.

Document NPL11, Vejdělek, Z.J., et al., "6-Aminopenicillansäure-Derivate II. Substituierte 6-N-(2-Styryl- Und 6-N-(2-Phenyläthyl-Benzamido)Penicillansäuren," Collect. Czech. Chem. Commun. 29:776, 786-788, 791-794, Nakladatelstvi Ceskoslovenski Akademie Ved (1964), is in the German language. An English language abstract of document NPL11 is attached as document NPL12.

Document **FP2** was cited in a search report by a foreign patent office in a counterpart foreign application. Submission of an English language version of the search report that indicates the degree of relevance found by the foreign office is provided in satisfaction of the requirement for a concise explanation of relevance. The search report is attached as document NPL14 on the IDS Form, PTO/SB/08B. 1138 OG 37, 38.

Where the publication date of a listed document does not provide a month of publication, the year of publication of the listed document is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the month of publication is not in issue. Applicant has listed publication dates on the attached IDS Forms based on information presently available to the undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated.

Applicant reserves the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may

Thomas HIMMLER Appl. No. 10/586,491

not be prior art, and/or to prove that this information may not be enabling for the

teachings purportedly offered.

This statement should not be construed as a representation that a search has been

made, or that information more material to the examination of the present patent

application does not exist. The Examiner is specifically requested not to rely solely on

the on the material submitted herewith.

This Information Disclosure Statement is being filed before the mailing date of a

first Office Action on the merits. No statement or fee is required.

It is respectfully requested that the Examiner initial and return a copy of the

enclosed IDS Forms, and indicate in the official file wrapper of this patent application

that the documents have been considered.

The U.S. Patent and Trademark Office is hereby authorized to charge any fee

deficiency, or credit any overpayment, to our Deposit Account No. 19-0036.

Respectfully submitted,
